Human FGFR2 alpha (IIIc) Protein

Cat. No. FGR-HM2CD

Description

Source	Recombinant Human FGFR2 alpha (IIIc) Protein is expressed from HEK293 with His tag at the C-Terminus.
	It contains Arg22-Glu377.
Accession	P21802-1
Molecular Weight	The protein has a predicted MW of 40.6 kDa. Due to glycosylation, the protein migrates to 60-70 kDa based on Tris-Bis PAGE result.
Endotoxin	Less than 1EU per μg by the LAL method.
Purity	> 95% as determined by Tris-Bis PAGE
	> 95% as determined by HPLC

Formulation and Storage

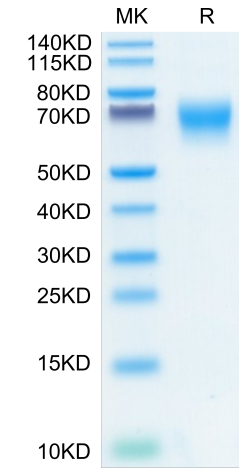
Formulation	Lyophilized from 0.22μm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.
Reconstitution	Centrifuge the tube before opening. Reconstituting to a concentration more than 100 μg/ml is recommended. Dissolve the lyophilized protein in distilled water.
Storage	-20 to -80°C for 12 months as supplied from date of receipt. -20 to -80°C for 3-6 months in unopened state after reconstitution. 2-8°C for 2-7 days after reconstitution. Recommend to aliquot the protein into smaller quantities for optimal storage. Please minimize freeze-thaw cycles.

Background

Four distinct genes encoding closely related FGF receptors, FGF R1 - 4, are known. All four genes for FGF Rs encode proteins with an N-terminal signal peptide, three immunoglobulin (Ig)-like domains, an acid-box region containing a run of acidic residues between the IgI and IgII domains, a transmembrane domain and the split tyrosine-kinase domain. Multiple forms of FGF R1 - 3 are generated by alternative splicing of the mRNAs. A frequent splicing event involving FGF R1 and 2 results in receptors containing all three Ig domains, referred to as the alpha isoform, or only IgII and IgIII, referred to as the beta isoform.

Assay Data

Tris-Bis PAGE



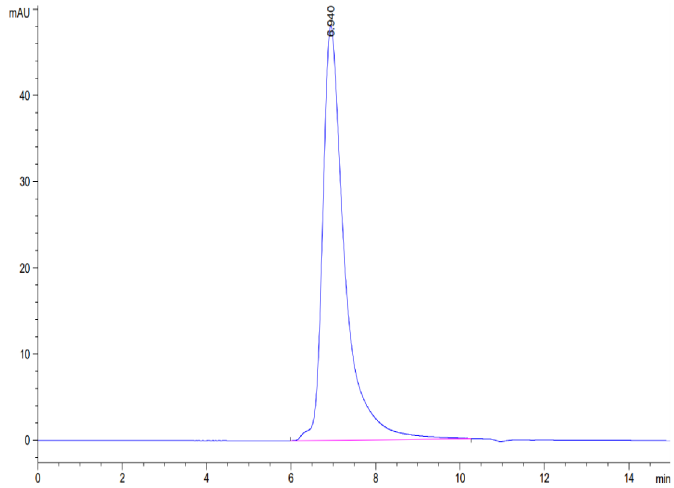
Human FGFR2 alpha (IIIc) on Tris-Bis PAGE under reduced conditions. The purity is greater than 95%.

SEC-HPLC

Human FGFR2 alpha (IIIc) Protein

Cat. No. FGR-HM2CD

Assay Data



The purity of Human FGFR2 alpha (IIIc) is greater than 95% as determined by SEC-HPLC.
